The question is often asked, "Does Bronz-Glow meet the specs for Baked Phenolic Coatings"? The answer is evident: "HUSKY COIL COAT NOT ONLY MEETS, but EXCEEDS the specifications for a Phenolic Coating". Husky Coil Coat is a proprietary complex chain-linked polyelastomer coating process unique in the HVAC/R industry. Bronz-Glow provides the MOST ADVANCED COATING TECHNOLOGY AVAILABLE, to protect your equipment in the MOST AGGRESSIVE OF CORROSIVE ENVIRONMENTS. Our EXCLUSIVE warranty programs are easy to understand, maintain, and unmatched in the industry. Ask about our Certificate of Coating Compliance. It's another way to assure you receive the coating application you're specifying. We offer a free "Owners Coil Cleaning and Maintenance Manual" for those who request this document.

Ask about Bronz-Glow's industrial coating product and coatings for those concerned with Indoor Air Quality. Tell us about your corrosion problems, if we don't have an answer, we'll find the answer for you. Contact your nearest Bronz-Glow Authorized Manufacturer's Representative or Certified Field Applicator.
