Product Data Sheet

Husky® Coil Guard

A Concentrated Alkaline Industrial-Strength Cleaner for Coated Coils

Coil Guard Characteristics:

- Shelf Life: 1 + yrs. @ 77° F (25° C) unopened
- Superior wetting and dirt-cutting formula
- Highly concentrated
- High foaming qualities aid in better removal of impurities
- Will not etch or attack a coils alloy or coating (if coated)

Coil Guard Benefits:

- Does not burn or irritate applicator's skin on contact
- Biodegradable
- Will Not damage Bronz-Glow Coil Coatings
- Degreases
- Deodorizes
- Safe for the environment
- Removes dirt, grime, oil, insect residue & airborne corrosives

Coil Guard Application:

Husky Coil Guard is a biodegradable, neutral pH, surfactant coil cleaner, perfect for maintaining your Bronz-Glow coating and maximizing the energy efficiency of your units. It is the only cleaner that is authorized for use on Bronz-Glow Coated Coils.

Use Husky Coil Guard to periodically clean coils which are dirty and/or have corrosive atmospheric deposits. Coil Guard's high-foaming qualities aid in better penetration of the cleaner and time retention on vertical surfaces being cleaned, removing dirt, grease, and other impurities within 3-5 minutes. Husky Coil Guard is formulated of cleaners and deep penetrating surfactants; it reduces the surface tension of water, allowing it to saturate soils. In this way Coil Guard breaks the bond between the deposits and the surface being cleaned, so they rinse easily away from the surface.

Coil Guard acts as a neutralizer to acidic deposits, which aids in reducing their corrosive attacks. Coil Guard removes the grime without etching or attacking the protective coating. This foaming, penetrating cleaner will complete your Preventive Maintenance Program.

Rate: Use 6-8 ounces per gallon of water. (0.170 – 0.226 kg to 3.785 liters)

Packaging: 1 Gallon Containers (Packaged 4 to a Case)
