

It's Going To Rust, So Bring It To Us!

Product Data Sheet

Husky® Sea Coast

An Economical and Versatile Coil Coating Resistant to Corrosive Attack

Corrosion Protection from: Salt Air, Salt Water, Acid Rain, Ammonia Vapor, Chlorine Vapor, Uric Acid/Urea and other moderate atmospheric corrosives.

Coating Recommendation: Bronz-Glow Husky Sea Coast Protector provides corrosion protection for air conditioning coils, steel cabinets, wood, pipe, concrete, masonry, aluminum, outdoor light fixtures, lawn furniture, tools and many other items.

Benefits:

- Extends equipment life
- Reduces maintenance costs
- Protects in virtually any corrosive environment
- Aids in maintaining operating efficiency (*Saves unnecessary energy loss*)
- Easy to apply by spray, brush or roll methods.

Description: Husky Sea Coast Protector is an elastomer coating providing economical corrosion protection. This coating adheres to steel, concrete, wood, aluminum and other metals. Sea Coast is a highly versatile coating product which may be easily applied to many types of surfaces by spray or brush methods.

Coating Characteristics:

Solids: (wt) 17%	Stone Abrasion: Good (ASTM D-3170)
Tensile: 2,500 psi (ASTM D-638)	Finish: semi-gloss
Shelf Life: 1 + yrs @ 77° F unopened	Cut Resistance: Very Good (ASTM D-1044)
Salt Spray: 2,000 hrs (ASTM B-117)	Field Repairable: Yes
Gas Chromatography Test (FID) No evidence of residual vapors	

Color: Translucent Blue

Alternative Product: Bronz-Glow Husky Green Fin or Blue Fin

Coverage Rate: 150 sq.ft. /gal @ 3 mils dft (dry film thickness) on flat surfaces
300 sq.ft. /gal @ 1.5 mils dft (dry film thickness) on flat surfaces
(cover rate may vary based on weather condition, method of application and porosity of material being coated)

Packaging: 5 gallon pails, 50 gallon drums, aerosol cans
(Note: Aerosol cans are not a stocked item in this product.
Please allow for packaging and delivery time when ordering.)
